

KS5 Curriculum Plan 2022-2023

		LP1	LP2	LP3	LP4	LP5
Year 12	TOPIC	Unit 1: Human Lifespan Development Unit 2 - Working in Health and Social Care	Unit 1: Human Lifespan Development Unit 2 - Working in Health and Social Care	Unit 1: Human Lifespan Development Unit 2 - Working in Health and Social Care	Unit 1: Human Lifespan Development Unit 2 - Working in Health and Social Care	Unit 5: Meeting Individual Care and Support Needs Unit 14 - Physiological Disorders and their Care
	Knowledge	Unit 1 – Learning Aim A - Human growth and development through the life stages Unit 2 – Learning Aim A - The roles and responsibilities of people who work in the health and social care sector	Unit 1 – Learning Aim B - Factors affecting human growth and development Unit 2 – Learning Aim B - The roles of organisations in the health and social care sector	Unit 1 – Learning Aim C – The effects of ageing Unit 2 – Learning Aim C - Working with people with specific needs in the health and social care sector	Unit 1 – How to prepare for your external assessment Unit 2 – How to prepare for your external assessment	Unit 5 -Learning Aim A - Examine principles, values and skills which underpin meeting the care and support needs of individuals Unit 14 - Physiological Disorders and their Care
	Skills	<p>Unit 1 external examination unit Students will develop their knowledge and understanding of patterns of human growth and development. Students will explore the key aspects of growth and development, and the experience of health and wellbeing. Students will enhance their research skills and investigate a number of theories and models to explain and interpret behaviour through the human lifespan. Students will learn to explore the impact of both predictable and unpredictable life events, and recognise how they impact on individuals. Students will investigate the interaction between the physical and psychological factors of the ageing process, and how this affects confidence and self-esteem, which in turn may determine how individuals will view their remaining years. Students will enhance their revision techniques and practice their examination answers through a number of short- and long-answer questions. Students will learn to explore and relate to contexts and data presented.</p> <p>Unit 2 external examination unit Students will learn to demonstrate their knowledge of service user needs, roles and responsibilities of workers, and working practices within the health and social care sector. Students will learn to develop their understanding of service user needs, roles and responsibilities of workers, working practices and procedures in the health and social care sector. Students will learn to analyse and evaluate information related to the roles and responsibilities of health and social care workers and organisations and how workers and organisations are monitored and regulated. Students will enhance their revision techniques and prepare for the four sections of their paper, revisiting unit content and preparing structured answers for their exam-based questions of 2, 4, 6 and 8 marks.</p> <p>Unit 5 internal coursework unit Students will promote and develop skills and personal attributes required for developing relationships with individuals, within a report task.</p> <p>Unit 14 internal coursework unit Students will learn to investigate the causes and effects of physiological disorders, within a report task.</p> <p>In both Unit 5 and 14, students will enhance their ICT and literacy skills within their report tasks, for their internal assessments.</p>				
Key Vocab	Life stages, Physical, development, sector, roles, Care professionals, health visitors, support workers, social needs, milestones and developmental norms.	Service users, working practices, theorists, behavioural, lifespan, life events, predictable, unpredictable, support works, working practices and responsibilities.
