

## Year 12 Biology SMR Learning Programme 4

<p>The LORIC skill focus for his LP is: INITIATIVE. The Moral Virtues focus for this LP are: INTEGRITY and GRATITUDE.</p> <p>Integrity - Having strong moral principles. Gratitude - Feeling and expressing thanks.</p> <p><b>What will I be learning about in this Learning Programme?</b> How specialised exchange systems in animals are structured for their function.</p> <p><b>Where have I seen this learning before?</b> You have learnt about breathing, the blood and the heart in KS3 and GCSE.</p> <p><b>What could I use it for?</b> You will use this again if you study a bachelor of science in physiology or medicine.</p>		<p><b>Literacy:</b></p> <ul style="list-style-type: none"> <li>Capital letters must be used at the start of sentences and for the first letter of proper nouns</li> <li>Full stops must be used at the end of a sentence</li> <li>Question marks must be used at the end of a question</li> <li>Apostrophes should only be used for possession or omission</li> <li>Days of the week and months must be spelled correctly</li> <li>Key words must be spelled correctly</li> </ul>
<p><b>In LP4.1, I will know:</b> 10/03/25 - (WK 2)</p> <p>how to complete an assessment of your learning so far; how to review your assessment to close the gaps in your knowledge.</p>	<p><b>Key Vocabulary</b></p> <p>assessment</p>	<p><b>Homework</b></p> <p>Revision for assessment.</p>
<p><b>In LP4.2, I will know:</b> 17/03/25 - (WK 1)</p> <p>the need for specialised transport systems; the structure and functions of arteries, arterioles, capillaries, venules and veins.</p>	<p><b>Key Vocabulary</b></p> <p>circulation</p>	<p><b>Homework</b></p> <p>Exam questions on blood vessels.</p>
<p><b>In LP4.3, I will know:</b> 24/03/25 - (WK 2)</p> <p>the differences in the composition of blood, tissue fluid and lymph; the role of haemoglobin in transporting oxygen.</p> <p>Extended Task.</p>	<p><b>Key Vocabulary</b></p> <p>haemoglobin</p>	<p><b>Homework</b></p> <p>Exam questions on blood.</p>
<p><b>In LP4.4, I will know:</b> 31/03/25 - (WK 1)</p> <p>how carbon dioxide is transported in the blood and the impact this has on the body; the Bohr Effect as changes due to carbon dioxide and different oxygen carrying proteins such as myoglobin and foetal haemoglobin.</p>	<p><b>Key Vocabulary</b></p> <p>dissociation</p>	<p><b>Homework</b></p> <p>Exam questions on oxygen transport.</p>
<p><b>In LP4.5, I will know:</b> 21/04/25 - (WK 2)</p> <p>the external and internal structure of the mammalian heart; how to carry out PAG2: heart dissection.</p>	<p><b>Key Vocabulary</b></p> <p>myocardial</p>	<p><b>Homework</b></p> <p>Exam questions on the structure of the heart.</p>
<p><b>In LP4.6, I will know:</b> 28/04/25 - (WK 1)</p> <p>the stages of the cardiac cycle; how to use electrocardiograms to diagnose conditions.</p> <p>Extended Task.</p>	<p><b>Key Vocabulary</b></p> <p>electrocardiogram</p>	<p><b>Homework</b></p> <p>Exam questions on interpreting electrocardiograms.</p>
<p><b>In LP4.7, I will know:</b> 05/05/25 - (WK 2)</p> <p>how the cardiac cycle is coordinated by looking at the electrical structures within the heart; how the control of the cardiac cycle links to homeostasis including the maintenance of tissue fluid.</p>	<p><b>Key Vocabulary</b></p> <p>cardiac cycle</p>	<p><b>Homework</b></p> <p>Exam questions on the circulatory system.</p>
<p><b>Resources to support learning:</b></p> <p><a href="https://www.youtube.com/watch?v=iGcUcK7Vm_o">https://www.youtube.com/watch?v=iGcUcK7Vm_o</a> <a href="https://www.youtube.com/watch?v=J8MVOwbzW14">https://www.youtube.com/watch?v=J8MVOwbzW14</a> Knowledge organiser, Synergy.</p>		
<p><b>FFET Award Challenge for this Learning Programme:</b></p> <p>Help the lab technician in preparing and clearing up after practical's.</p>
